Young Women in Geometry

Venue: Max Planck Institute for Mathematics, Bonn

This workshop provides a platform for young female researchers in Geometry. The plenary lectures will be given by

Ailana Fraser

University of British Columbia, Canada

Esther Cabezas-Rivas

Universität Frankfurt, Germany

Julie Rowlett

Chalmers, Sweden

Advanced master students, graduate students and postdocs are invited to hand in abstracts for contributed talks and posters. All talks and the poster exhibition are open to the public.

Limited financial support is available. We gratefully acknowledge the financial support from the Hausdorff Center for Mathematics and the Max Planck Institute for Mathematics.
